

Overview

Leading national and international companies regularly call on our Notary Services practice to assist with large and complex issues concerning corporate and commercial law. In such cases, which require a broad approach, the close cooperation between our various specialised civil law notaries and lawyers provides significant added value.

We assist our clients in establishing, converting and dissolving legal entities and in amending the articles of association of legal entities. We also advise on regulations for management boards and supervisory boards, certification and trust conditions and share issues and transfers for Dutch public limited companies (NVs) or private limited companies (BVs).

Corporate and M&A Notary

We have extensive experience in advising on mergers, acquisitions and restructurings in a national and international setting. We also assist clients when it comes to establishing European companies and cooperatives.

Real Estate Notary

Our Notary Services practice has many years' experience in real estate and project development including:

- Sale and purchase of commercial and privately owned real estate
- Construction, project development and turnkey projects
- Division of apartments into individual titles
- Ground lease and building
- Building financing and security
- Real estate auctions

Trust estate and wealth preservation
